Dear Hiring Manager,

I am writing to express my interest in opportunities within your organization. I recently earned my Bachelor's degree in Computer Science and am excited to begin my career in software engineering. While I am entering the technology industry, I bring more than fifteen years of leadership, operational, and problem-solving experience that has prepared me to contribute from day one.

For more than a decade, I served as a supervisor at UPS, leading teams in a fast-paced, deadline-driven environment where accountability, communication, and continuous improvement were essential. Later, as a union surveyor, I developed the precision, adaptability, and attention to detail required to deliver accurate results under demanding conditions. These experiences taught me how to remain calm under pressure, solve problems efficiently, and take ownership of my work.

While earning my Computer Science degree, I built a strong foundation in software development through projects involving Python, Java, JavaScript, SQL, Flask, HTML, CSS, databases, and software engineering principles. Beyond the classroom, I expanded my experience by designing, developing, and deploying a production web application for a real client. Working directly with the client to gather requirements, implement new features, and maintain the application strengthened both my technical skills and my ability to deliver software that solves real-world problems.

Throughout my career, I have earned a reputation for reliability, professionalism, and long-term commitment. I enjoy learning new technologies, collaborating with others, and continuously improving both my technical and interpersonal skills. I am eager to contribute to a team where I can continue growing as a software engineer while delivering meaningful results from the very beginning.

Thank you for your time and consideration. I welcome the opportunity to discuss how my background, technical skills, and work ethic can contribute to your organization. I look forward to speaking with you.

Sincerely,

Erick Nava
